Bill,

I have reviewed the Remedial Action Completion Report for Evergreen Manor. It appears that the actions outlined in the Remedial Action Work Plan that was incorporated into the Consent Decree have been completed and the remedial action objectives have been achieved. Therefore, Illinois EPA has no objection to proceeding with the de-proposing of the site.

Can you tell me when the site was proposed?

Thanks,

Erin

Subject: Evergreen Manor Remedial Action Completion and Certification Report

Hi Erin - I see you received a copy of the May 3, 2012 Remedial Action Completion and Certification Report for the Evergreen Manor site. I am drafting an approval letter and plan to move forward with de-proposing the site. Do you have any comments or concerns? If you have a moment, please send me confirmation that you have reviewed the Report and either agree or disagree with the conclusions outlined therein. If I don't hear from you by COB 06/15/12 I will assume that IEPA concurs with U.S. EPA's intention to approve the Remedial Action Completion and Certification Report, issue a Final Close Out Report, and de-propose the site. Thanks.

Bill Ryan, Remedial Project Manager
